

# ACKNOWLEDGEMENT

We would like to add a few words of appreciation for the people who have been a part of the project right from the inception. The project has been one of the significant academic challenges that we have faced and without the support, patience and guidance of the people involved, this task would not have been completed. We owe our deepest gratitude to them.

Our heartfelt thanks to our Principal, **Dr. H D Maheshappa** and Chairman **Mr. Premnath Reddy** for providing us with the necessary infrastructure in the form of labs that assisted us in the completion of this project.

It gives us immense pleasure in presenting the topic of our project which is “**ANDROID BASED COURSE DELIVERY AND EVALUATION SYSTEM**”. It has been our privilege to have had our Head of Department, **Prof. C K Marigowda** as our guide. He has been a wonderful mentor and helped us in identifying the weaknesses of the project and removing them. Without his updates and meetings this project would remain incomplete and not see the light of day .I hereby take this opportunity to thank him for his immense support and guidance despite his many other professional commitments.

We also acknowledge the help of the project coordinator **Prof. Chayapathi A R**, whose deadlines allowed us to work harder and implement the project as is observed in its present state. He has kept a watchful eye over the project and his constant words of encouragement have enabled us to complete this project.

We would also like to extend our gratitude to all the non-teaching staff for their kind co-operation during the course of work. The support provided by the department library is gratefully acknowledged. Last but not the least, we are thankful to our parents and friends, who helped us one way or the other throughout out project work.
